The IB Fair, including the Theory of Knowledge Exhibit and Personal Project presentations, will be held April 10th from 5:30-7:00 pm. Students can start setting up at 5:00 pm. Similar to a science fair, students will showcase their information and be around to talk to parents, friends, families and community members about their process and project. For 10th graders, the fair is a **requirement** of the Personal Project. As a reminder, the completion of the journal, project, and presentation will earn the student ½ an elective credit towards graduation. If a student does not present, they will fail Advisement.

## **State Assessments: CMAS Science**

CMAS Science is unique to 11th grade students only. This test is aligned to the new Science standards set forth by the state of Colorado. CMAS allows the school to see how we are progressing at teaching these standards and how students are performing on these standards. CMAS is used in conjunction with classroom tests to build a full picture to assess strengths and areas of growth. All

growth and achievement data from CMAS adds another layer to the CDE school report for each individual school in the state. Students at SLHS will be taking CMAS Science the week of April 1-4 in their science course. If a student does not have a science class, they will be pulled at another time to complete the test. Use the [Testing FAQ](#) for more information about CMAS Science.

## **Family Calendar**

Please use the [2nd-semester family calendar](#) to view our internal Gator schedule for the year. This calendar will continue to be updated throughout the semester to reflect any changes.
